DETAILED ACTION

Response to Amendment

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 7 is rejected under 35 U.S.C. 102(b) as being anticipated by Gramnas US Patent 5,376,133.

Gramnas discloses a leg prosthesis having a foot pivotally connected to the leg at a pivoting joint, means for step-less adjusting the foot (see col. 2, lines 51-68; and col. 3, lines 1-18; the locking system does not show a step different than US Patent 2,749,557, shown in col. 1, lines 25-28) and means for limiting pivoting movement.

Allowable Subject Matter

Claims 9-17 are allowed.

Claims 3-6 and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
